PROFILE SUMMARY

Computer Engineering graduate with a strong foundation in Java Full Stack Development, including Core Java, Object-Oriented Programming (OOP), Collections Framework, SQL, JDBC, Servlets, JSP, and MySQL. Hands-on experience in developing academic and full-stack projects using Apache Tomcat, Maven, Git, GitHub, and Eclipse.

TECHNICAL SKILLS

- **Backend:** Java (OOP, Exception Handling), JavaScript, Servlets, JSP, JDBC
- **Frontend:** HTML5, CSS3
- **Database Management:** SQL, MySQL, Joins, Subqueries, Normalization
- **Core Programming:** Data Structures, Collections Framework, CRUD Operations, Problem-Solving
- **Development Tools:** Eclipse, VS Code, SQL*Plus, Maven, Android Studio, Sublime Text
- **Version Control Systems:** Git, GitHub

PROJECTS

SmartPay Banking Application

- | **Academic Project** Java, MySQL, XML, JDBC, Servlets, JSP, Maven, Apache Tomcat
- Built a secure banking application with authentication, session management, and fund transfer features.
- Designed a normalized **MySQL** schema with **ACID**-compliant transaction processing.
- Optimized **JDBC** queries and **XML** configuration for faster database connectivity.

Online Food Ordering Platform

- **Academic Project** | Java, MySQL, HTML5, CSS3, Servlets, JSP, JDBC
- Developed full-stack food ordering system with cart, order tracking and **secure login functionality**.
- Implemented **server-side** validation and session management for secure data processing.

Farmer Management System

- **Academic Project** | Java, MySQL, JDBC, HTML5, CSS3
- Built a **Java-MySQL** application managing 100+ farmer profiles, crop records, and sales data.
- Added backend validation and optimized **SQL queries** for **faster** data retrieval.
- Applied **3NF normalization** to ensure data integrity across all records.

EDUCATION

- **B.T. Computer Engineering** – BHARATI VIDYAPEETH (DEEMED TO BE UNIVERSITY) 2022 - 2027
- **HSC** – Shiv Chhatrapati College | **73.20%** | 2020 - 2022
- **SSC** – Dnyan Vikas School | **83.20%** | 2020

CERTIFICATION

- Earned certifications in Java Programming Masterclass: Beginner to Master, Python 101 for Data Science, and Cybersecurity Analyst Job Simulation, demonstrating a commitment to continuous learning and technical skill development in software development and cybersecurity.
